WHY IHOME?

Smart living that's simpler, safer and greener

Simpler

One app for lights, climate, curtains, security and voice

Safer

24/7 cameras, smart locks and instant alerts

Greener

Designed to cut home energy use by 30%

YOUR HOME'S ENERGY USE

Typical home **100%** lights & A/C left on → With iHome **70%** automated & optimised

OUR COMPETITIVE EDGE

- Built in during construction
- AI routines & voice control
- Encrypted, private network
- Ready for 5+ new devices
- Under 2-second response
- Tested before handover

THE PEOPLE BEHIND IHOME

Meet the team

Six engineers covering software, hardware, security, networking and business, working as one team.

MA — Eng. Mazen Adel
Project Manager

MA — Eng. Mohamed Ayman
Software & Testing

RM — Eng. Rahma Mohammed
Business Development

RS — Eng. Rana Saber
Hardware & System Architecture

GM — Eng. Gehad Mohammed
Security Engineer

AK — Eng. Asmaa Khaled
Network & IoT

SUPERVISED BY

Dr. Jacqueline Wagdy Labib
National Telecommunication Institute (NTI)

iHome

Your dream, our reality.

AI-POWERED SMART HOME SYSTEMS

Smart living, built in from the ground up.

OUR MISSION

Intelligence, built into every wall

To build an intelligent, secure, and energy-efficient smart home by integrating advanced automation and smart technologies directly into the home's infrastructure during construction, ensuring comfort, safety, and seamless control.

HOW WE DO IT

Built in
Designed into the home during construction.

Intelligent
AI routines and voice control that adapt to you.

Secure
24/7 monitoring, smart locks and real-time alerts.

Efficient
Smart lighting and climate that cut energy use.

A LOOK INSIDE

Step inside an iHome

Every room works as one system. Here is an evening in an iHome living room.

1. **Smart lighting** — Scenes that follow daylight
2. **Smart curtains** — Open at sunrise, close at night
3. **Climate control** — Comfort with less energy
4. **Voice assistant** — "Hey iHome, movie mode"
5. **Home dashboard** — Everything at a glance
6. **Smart cameras** — 24/7, with live alerts
7. **Smart lock** — Keyless entry by PIN or phone
8. **Motion sensors** — Trigger lights and alarms
9. **iHome app** — Control it all from anywhere

A DAY IN AN IHOME

6:30 AM	Curtains open, lights warm up
8:00 AM	Away mode: doors lock, A/C goes eco
6:00 PM	Welcome home: your scene is ready
11:00 PM	Good night: lights off, alarm armed

OUR VISION

The future of living, connected

To become a model for future-ready smart living by creating a fully connected, sustainable, and expandable home that enhances everyday life through intelligent technology, automation, and peace of mind.

- **Connected** · every device on one secure network
- **Sustainable** · less wasted energy, more solar
- **Expandable** · grows with your family

WHAT WE STAND FOR

Innovation · Safety & Security · Sustainability · Comfort & Convenience · Reliability · Integration · Scalability · Privacy & Cybersecurity · Peace of Mind · Quality & Excellence
