إزاي تقروا الورق ده

- الكلام العادي = اللي بتقولوه بالإنجليزي. قولوا الفكرة، مش لازم نفس الكلمات بالظبط.
- 🎬 المربع الأصفر = تعليمات بالعربي، دي بتعملوها ومش بتتقال.
- ➡️ = جملة الربط، قولوها وإنتو بتقلبوا السلايد.
- [Name] = قول اسمك، أو اسم اللي بعدك.

قبل العرض

- جهزوا: 6–8 قطع شوكولاتة، والبروشور المطبوع، وملف الـ Gantt مفتوح على نفس اللابتوب.
- واحد يمسك الوقت ويشاور لو حد طوّل.
- لو خلصتوا بدري: افتحوا صفحة الـ QR على الشاشة في الآخر وعدّوا على الملفات والفيديو (حوالي دقيقتين).

Project Manager · مدير المشروع — **slides 1 · 2 · 3 · 4 · 5 · 6 · ≈ 4:05 min**

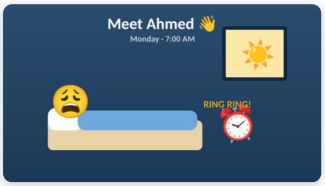

SLIDE 1 · COVER

Good morning, everyone. I'm [Name], the Project Manager of team Roaya.

🎬 ابتسم وبص للجنة. ارفع إيدك إنت الأول وإنت بتسأل، واستنى ثانيتين.

Quick question: who was stuck in traffic this week? Raise your hand.

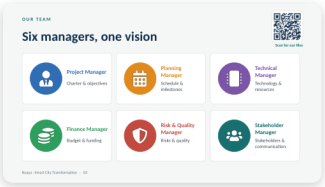

Me too! Now, let's meet someone who is stuck every day. His name is Ahmed.

SLIDE 2 · AHMED'S MONDAY (VIDEO)

🎬 الفيديو بيشتغل لوحده (دقيقة). اقف على جنب وبص على الشاشة معاهم.

Poor Ahmed! Traffic, a high bill, and a long line. That's why we started Roaya. Roaya means "vision" in Arabic.

SLIDE 3 · OUR TEAM

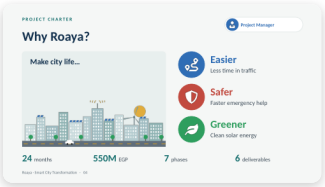

We are six managers, and each of us has one part.

🎬 وإنت بتقول كل دور، صاحبه يرفع إيده ويبتسم.

Planning, Technical, Finance, Risk and Quality, and Stakeholders. And I'm the Project Manager.

🎬 شاور على الـ QR اللي على السلايد، واستنى حوالي 10 ثواني لحد ما يصوروه.

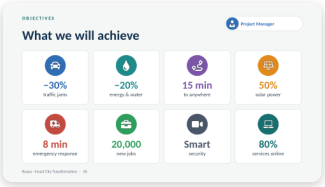

You can scan this code now. All our files are there.

SLIDE 4 · WHY ROAYA?

Why Roaya? To make city life easier, safer and greener.

The project takes 24 months and 550 million pounds, in 7 phases.

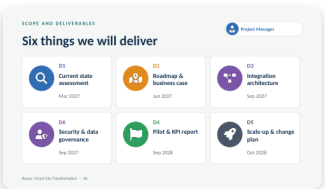

SLIDE 5 · WHAT WE WILL ACHIEVE

We have eight clear goals. For example: 30% less traffic, half of our power from the sun, and emergency help in under 8 minutes.

🎬 اسأل وشاور على السلايد، واستنى ثانيتين.

Which goal do you like most? For me, it's 15 minutes to anywhere!

SLIDE 6 · SIX THINGS WE WILL DELIVER

Our work ends with six deliverables, from the first study in 2027 to the final plan in 2028. The sponsor approves each one before we move on.

➡️ **So, when will all this happen? Our Planning Manager, [Name], will tell you.**

Planning Manager · مدير التخطيط — **slides 7 · 8 · 9 · ≈ 2:13 min**

SLIDE 7 · 24 MONTHS, 7 PHASES

Thank you. I'm [Name], the Planning Manager.

Building a city is like building a house: walls first, then the roof. So we work in 7 phases, over 24 months.

In 2027, we study, plan and design. In 2028, we build, test, try it in one district, and then open it to the whole city.

SLIDE 8 · EIGHT CHECKPOINTS

We have eight checkpoints. At each one, the sponsor must say yes before we continue.

> 🎬 عرض حقيقي (30 ثانية): اطلع من العرض بـ Alt + Tab، افتح ملف الـ Gantt، شاور على المراحل، وارجع للعرض بـ Alt + Tab.

This is our real Gantt chart. Every task has a start, an end, and one owner.

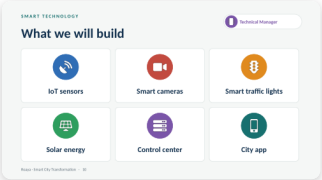

SLIDE 9 · INSIDE THE BIGGEST PHASE

The biggest phase is Phase 4: six months to build the network, the sensors, the cameras and the solar panels.

It takes 43% of the budget, so we check it every week.

➡️ **But what exactly will we build? Our Technical Manager, [Name], will show you.**

Technical Manager · المدير التقني — **slides 10 · 11 · 12 · ≈ 1:41 min**

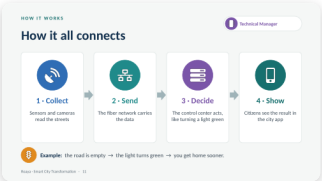

SLIDE 10 · WHAT WE WILL BUILD

Thank you. I'm [Name], the Technical Manager.

Think of a traffic light that knows the road is empty and turns green for you. That's the kind of city we're building.

We will install sensors, smart cameras, and smart traffic lights, use solar energy, and connect everything through one control center and a city app.

➡️ **So, how does it all work together?**

SLIDE 11 · HOW IT ALL CONNECTS

It works in four steps: sensors collect the data, the network sends it, the control center decides, and citizens see the result in the app.

🎬 شاوري على الـ 4 خطوات على السلايد وإنتي بتقوليهم، من الشمال لليمين.

So: the road is empty, the light turns green, and Ahmed gets home sooner.

➡️ **But to build all this, we need the right resources.**

SLIDE 12 · OUR FIVE RESOURCES

We need five types: people, around 186 in the infrastructure phase, materials like cables, equipment like cameras, money, and time.

➡️ **So, how much does all this cost? Our Finance Manager, [Name], will tell you.**

Finance Manager · المدير المالي — **slides 13 · 14 · 15 · ≈ 1:34 min**

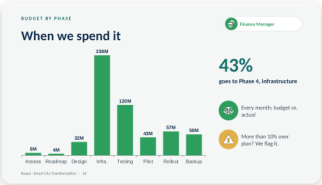

SLIDE 13 · WHERE THE MONEY GOES

Thank you. I'm [Name], the Finance Manager.

🎬 ارفع إيدك إنت الأول وإنت بتسأل، واستنى ثانيتين.

Who paid a high electricity bill this month? Yes, many of us! Solar energy will help with that.

Our budget is 550 million pounds. Almost half goes to infrastructure, and we keep 50 million as a backup.

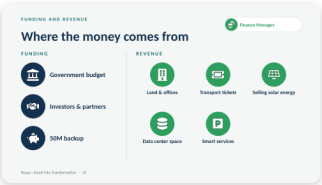

SLIDE 14 · WHEN WE SPEND IT

Most of the money goes to Phase 4, the building phase. Every month, I compare what we spent with the plan.

🎬 موقف قصير: اسأل السؤال كأنك بتسأل نفسك، وبعدين جاوب.

What if prices go up? Easy: we use the backup money, and we delay the less important work.

SLIDE 15 · WHERE THE MONEY COMES FROM

The money comes from the government and from investors. And the city also earns money: from offices, tickets, and selling solar energy.

➡️ **But every big project has risks. Our Risk and Quality Manager, [Name], will explain.**

Risk & Quality Manager · مدير المخاطر والجودة

slides 16 · 17 · 18 · ≈ 1:22 min

SLIDE 16 · OUR TOP RISKS

Thank you. I'm [Name], the Risk and Quality Manager.

We have four big risks: a cyberattack, device failure, going over budget, and data privacy. For each one, we have a plan.

SLIDE 17 · WHERE OUR RISKS SIT

This is our risk matrix. The darker the color, the bigger the danger.

🎬 شاور على R1 في الجدول. موقف قصير: عدّ الخطوات على صوابعك (1، 2، 3).

For example, what if hackers attack the city? First, we stop the attacked system. Second, our security team fixes it. Third, we tell the people. No panic: we have a plan.

SLIDE 18 · HOW WE PROTECT QUALITY

For quality, we have two goals: the system works 99% of the time, and 85% of people are happy. We test everything before it goes live.

➡️ **Now, let's talk about the people. Our Stakeholder Manager, [Name].**

Stakeholder Manager · مدير أصحاب المصلحة — **slides 19 · 20 · 21 · 22 · ≈ 2:33 min**

SLIDE 19 · EVERYONE WE WORK WITH

Thank you. I'm [Name], the Stakeholder Manager.

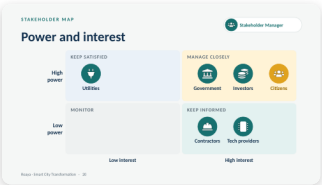

We can build the smartest city in the world, but if people don't use it, it fails.

We work with the government, investors, tech companies, contractors, and utilities. But the most important are the citizens, people like Ahmed.

🎬 ارفعي إيدك إنتي الأول وإنتي بتسألي، واستني ثانيتين.

Quick question: who uses an app to pay bills? See? People want easy services.

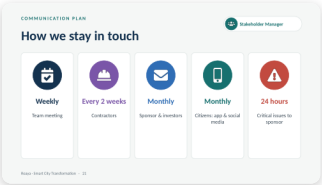

➡️ **But not all of them need the same attention.**

SLIDE 20 · POWER AND INTEREST

So we put them on a map. The government, investors and citizens get the most attention. Utilities, we keep happy. And contractors and tech companies, we keep informed.

➡️ **And to keep all these people on board, we need good communication.**

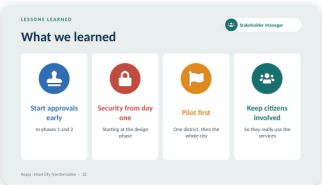

SLIDE 21 · HOW WE STAY IN TOUCH

The team meets every week and contractors every two weeks; the sponsor, investors, and citizens get monthly updates, and any serious problem reaches the sponsor within 24 hours.

🎬 امسكي البروشور وارفعيه، وبعد الجملة اديه للجنة.

This is our brochure for citizens: simple words, in Arabic and English.

➡️ **Before we finish, here is what we learned.**

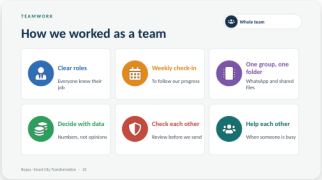

SLIDE 22 · WHAT WE LEARNED

Four lessons: start early, think about security from day one, test small first, and keep people involved.

➡️ **And we also learned a lot about working as a team.**

Everyone · الفريق كله | **slides 23 · 24 · ≈ 3:49 min**

SLIDE 23 · HOW WE WORKED AS A TEAM

🎬 كل واحد يقول جملته بالترتيب وهو باصص للجنة. لو جملة مش زي اللي حصل عندكم فعلًا، غيروها.

Project Manager: We split the work by role, so everyone knew their job.

Planning Manager: We met every week to check our progress.

Technical Manager: We used one WhatsApp group and one shared folder.

Finance Manager: When we didn't agree, we looked at the numbers, not opinions.

Risk & Quality Manager: We checked each other's work before we sent it.

Stakeholder Manager: And we helped each other when someone was busy.

Project Manager: ➡️ **Now, let's see who was listening!**

SLIDE 24 · QUICK QUIZ

🎬 كل مدير يسأل سؤاله بالترتيب ويستنى حد يجاوب. اللي يجاوب صح ياخد شوكولاتة 🍫 (جهزوا 6–8 قطع).

Project Manager: Let's start! How long is the project?

🎬 الإجابة: 24 months

Planning Manager: How many phases do we have?

🎬 الإجابة: 7 phases

Technical Manager: How many people work in the biggest phase?

🎬 الإجابة: about 186

Finance Manager: What is our total budget?

🎬 الإجابة: 550 million pounds

Risk & Quality Manager: What is our biggest risk?

🎬 الإجابة: a cyberattack

Stakeholder Manager: How many minutes does Ahmed need to get to work now?

🎬 الإجابة: 14 minutes (من الفيديو)

Project Manager: Well done, everyone! And now, back to Ahmed. [Name], our Stakeholder Manager.

SLIDE 25 · THANK YOU

With Roaya, his Monday becomes a lot easier.

You can scan the QR code to see all our files. Thank you for listening.

🎬 الفريق كله يقف جنب بعض ويبتسم، وممكن تنحنوا خفيف.
