Technical Manager — المدير التقني

What we will build · هنبني إيه

Thank you. I'm [Name], the Technical Manager.

Think of a traffic light that knows the road is empty and turns green for you. That's the kind of city we're building.

We will install sensors, smart cameras, and smart traffic lights, use solar energy, and connect everything through one control center and a city app.

➡️ **But to build all this, we need the right resources.**

شكرًا. أنا [اسمك]، المدير التقني.

تخيلوا إشارة مرور عارفة إن الطريق فاضي، فتنوّر أخضر ليك. هي دي نوعية المدينة اللي بنبنيها.

هنركّب حساسات، وكاميرات ذكية، وإشارات مرور ذكية، وهنستخدم الطاقة الشمسية، وهنربط كل حاجة ببعض من خلال مركز تحكم واحد وتطبيق للمدينة.

⬅️ **بس عشان نبني كل ده، محتاجين الموارد الصح.**

📝 Notes

- traffic light → turns green
- sensors · cameras · traffic lights
- solar · control center · app
- The 6 icons on the slide remind you of the list

Our five resources · مواردنا الخمسة

We need five types: people, around 186 in the infrastructure phase, materials like cables, equipment like cameras, money, and time.

➡️ **So, how much does all this cost? Our Finance Manager, [Name], will tell you.**

محتاجين 5 أنواع: ناس، حوالي 186 في مرحلة البنية التحتية، وخامات زي الكابلات، ومعدات زي الكاميرات، وفلوس، ووقت.

⬅️ **طب، كل ده هيتكلف كام؟ المدير المالي، [اسمه]، هيقولكم.**

📝 Notes

- Read the 5 cards left → right
- people → around 186 (infrastructure phase)
- materials → cables · equipment → cameras
- money · time

Stakeholders · أصحاب المصلحة

Thank you. I'm [Name], the Stakeholder Manager.

We can build the smartest city in the world, but if people don't use it, it fails.

We work with the government, investors, tech companies, contractors, and utilities. But the most important are the citizens, people like Ahmed.

➡️ **And to keep all these people on board, we need good communication.**

شكرًا. أنا [اسمك]، مديرة أصحاب المصلحة.

ممكن نبني أذكى مدينة في العالم، بس لو الناس ما استخدمتهاش، هتفشل.

إحنا بنشتغل مع الحكومة، والمستثمرين، وشركات التكنولوجيا، والمقاولين، وشركات المرافق. بس الأهم هم المواطنين، ناس زي أحمد.

⬅️ **وعشان نخلي كل الناس دي معانا، محتاجين تواصل كويس.**

📝 **Notes**

- smartest city… if people don't use it, it fails
- government · investors · tech · contractors · utilities
- most important → citizens, people like Ahmed

Communication · التواصل

The team meets every week and contractors every two weeks; the sponsor, investors, and citizens get monthly updates, and any serious problem reaches the sponsor within 24 hours.

➡️ **So, what does all this mean for Ahmed?**

الفريق بيتقابل كل أسبوع والمقاولين كل أسبوعين، والراعي والمستثمرين والمواطنين بيوصلهم تحديثات كل شهر، وأي مشكلة خطيرة بتوصل للراعي خلال 24 ساعة.

⬅️ **طب، كل ده معناه إيه بالنسبة لأحمد؟**

📝 **Notes**

- team → every week
- contractors → every 2 weeks
- sponsor + investors + citizens → monthly
- serious problem → sponsor in 24 hours
