The First Month

WEEK 1

Research and planning

WEEK 2

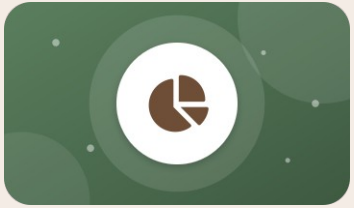

Content creation

WEEK 3

Launch marketing campaigns

WEEK 4

Measure results and improve

Our Action Plan in 7 Steps

1	Define your goals	40K reach, +500 followers, 100+ inquiries, +10 customers a day
2	List the tasks	11 key tasks, from market research to the final review
3	Set a timeline	4 weeks, with a clear deadline for every task
4	Assign responsibilities	Every task has one owner from our team
5	Identify resources	13,000 EGP budget, the right tools and a 4-person team
6	Monitor and assess progress	We track 5 KPIs and send a report every Sunday
7	Review and adjust	Fix what's weak every week, full review at month end

- Time for the photo shoot
- Weekly sales numbers

Monitor, Review and Adjust

KPI	Target	How we check
Reach	40K+	Meta Ads Manager
New followers	+500	Instagram Insights
Inquiries	100+	Messages and calls log
Cost per inquiry	Under 40 EGP	Meta Ads Manager
Daily customers	+10	Café sales records

Every Sunday: a progress report to the owner

If the numbers say...

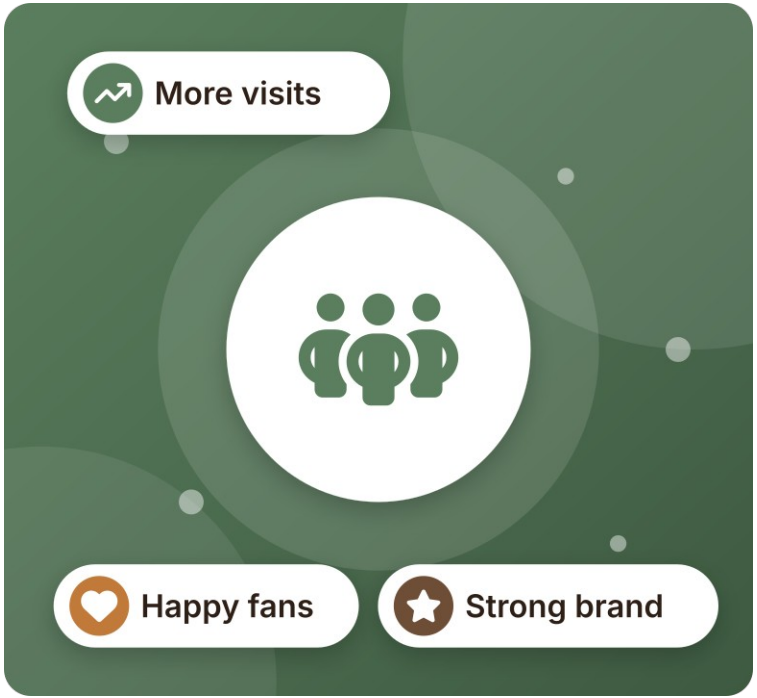

Reach is low
→ Move budget to the best ad

Few likes or comments
→ More reels, new posting times

Few new visits
→ Stronger offer, closer targeting

It's the end of the month
→ Review with the owner, plan month two

How the Café Benefits

- Reach more people
- Attract new customers
- Build a strong brand
- Improve customer engagement
- Better chance of higher sales

Our Month-One Targets

40K+
people nearby see The Daily Cup

+500
new Instagram followers

100+
messages, calls and direction requests

+10
extra customers every day

You see every number, every week

A simple weekly report: reach, followers, messages, visits and sales

Targets are based on a 4,000 EGP monthly ad budget and are confirmed after the week-1 review.

The Plan Pays for Itself

13,000 EGP
monthly investment

÷

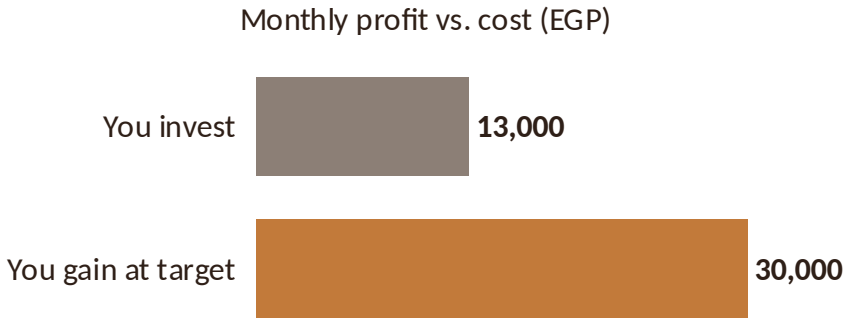

100 EGP
profit per customer*

=

130
customers a month

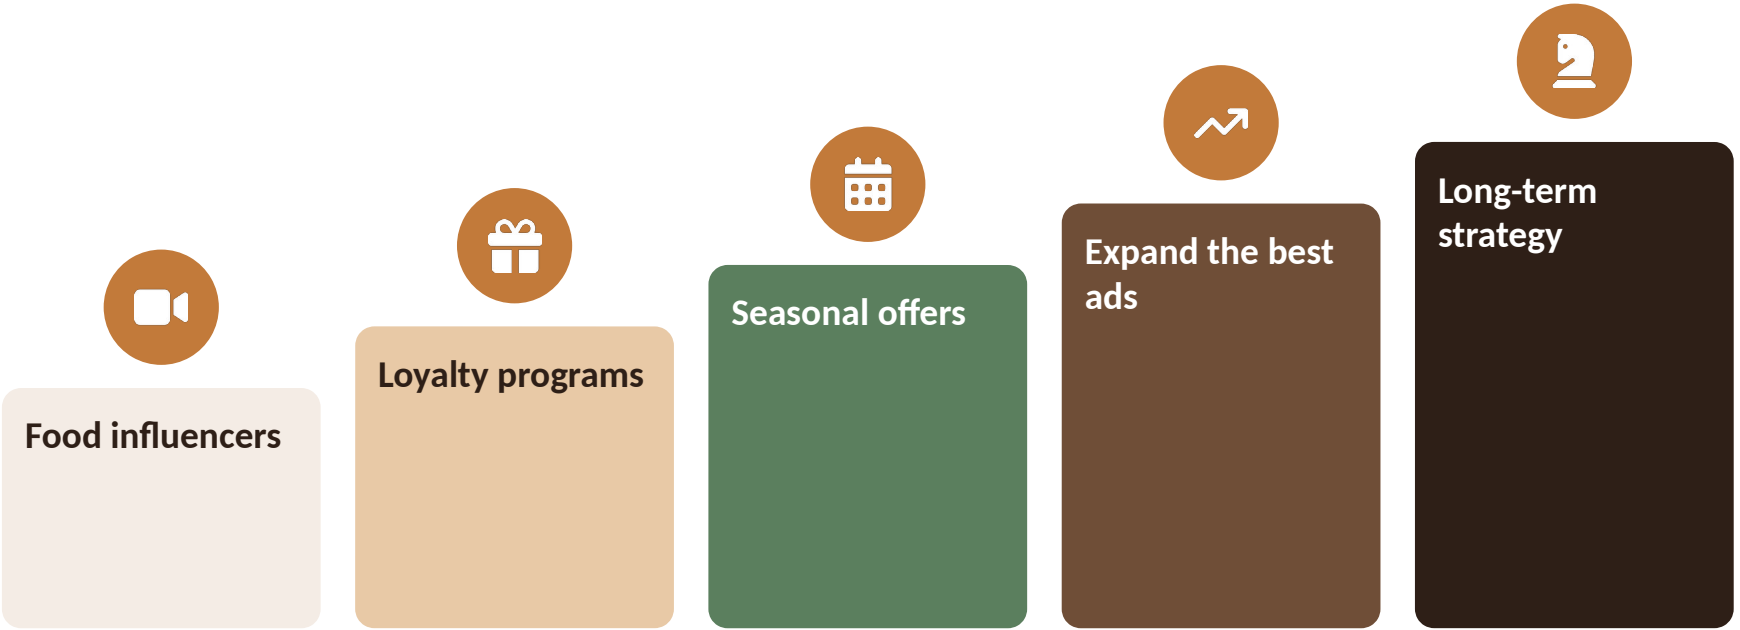

Less than 5

extra customers a day covers the full cost.
Our target is 10.

*Assumes an average bill of 150 EGP and about 65% margin after ingredients. At target: 10 customers × 30 days × 100 EGP = 30,000 EGP.
